

Rock Your Math Class

Accelerate Math Learning & Increase Understanding

Learn easy ways to teach Math concepts, skills and standards with songs, activities, games and projects.
One Day Seminar

Presented by Ron & Nancy Brown

Do you want to add fun and energy to your math lessons? Wouldn't it be exciting to have students requesting math lessons or hear them singing math songs at recess?! It's possible when you attend Ron and Nancy Brown's comprehensive one day workshop for teachers K-3. This workshop is packed with practical music-based ideas, activities and projects that you will be able to use immediately.

Learn new, easy songs to use music to teach math concepts and standards with practical strategies that really work. Teachers will be introduced to dozens of exciting activities and music that can be used to fit specific grade levels. Participants will actually develop raps and chants for their own classroom needs. **Come and join the fun with a jam packed day of teaching excitement. Remember, you don't have to be musical to use music to teach.**

What You Will Learn:

- * Original songs, raps, and chants developed specifically for the classroom to teach math concepts and standards.
- * Practical techniques and activities for using songs to teach math.
- * How to write your own raps and chants to teach math concepts for your individual classroom needs. We'll make it easy!!
- * Develop an understanding of the brain-compatibility of music and its importance in the classroom.

- * Compile a list of terrific musical ideas and activities that can easily be incorporated into your program.
- * Learn how rhyme, rhythm, and movement impact learning.
- * Discover how to use the math lyrics to teach reading, vocabulary development, structural analysis, reading for information, etc.
- * How to accelerate learning, inclusion, excitement, motivation, and understanding of information and concepts through music.
- * Management strategies and ideas to implement music into your current program.
How to pull it all together!
- * How to develop exciting and educational lessons with music!
